

About Me

As a transportation designer, I specialize in crafting both exterior and interior concepts that merge artistry with functionality innovation. I approach design as a balance between visionary creativity and practical functionality. My expertise in Class-A Surfacing, CAD rigging and visualization enables me to translate bold, imaginative ideas into highly detailed, dynamic and visualized concepts that redefine the future of mobility.

Design Portfolio

- jimzdesign.com

Education

2020-2025

- ArtCenter College of Design
Bachelor of Science w/Honor, Transportation Design
Business minor

2017-19

- Pratt Institute
Bachelor of Art, Industrial Design

Experience

Boom Supersonic

- June 2025 - Aug 2025
Design, 3D CAD/Visualization Intern

Aptera Motors

- Sep 2024 - Dec 2024
Design, 3D CAD/Visualization Intern

The Carlab

- Jan 2022 - May 2022
Automotive Market Analysis/Research, Design Intern

Beijing Hyundai Design Studio

- July 2019 - Sep 2019
Transportation Design Intern

Focus

- 3D CAD Modeling, 3D Surface Texturing, 3D Visualization/Animation
- Softwares
Autodesk Alias, Blender, Adobe Substance Suite, Davinci Resolve
