

Experience

Harman International

Nov 2024 - Feb 2025 (Shen Zhen)

Industrial design Intern

- Worked on CMF and sample testing for professional audio products
- Initial research and ideation for new products
- contributor to the design exploration and product development stages

Bernhardt Sponsored Project

SEP 2025 - DEC 2025 (Los Angeles)

Furniture Design

- Designed a privacy lounge chair from research to full-scale prototyping, defining posture, enclosure, and form through iterative models.
- Developed structural, material, and construction details aligned with Bernhardt's manufacturing processes and brand expectations.
- Gained hands-on experience in soft-goods engineering, ergonomics, and communicating design intent with fabricators.

TCL

SEP 2024 - NOV 2024 (Shen Zhen)

CMF Design Intern

- Design CMF concepts for an unreleased home appliance, and promote the progress of material samples.
- Transmission of design ideas through AI generation and mood board.
- Design the content and layout of the website of design story.

Education

Artcenter Collage of Design

JUNE 2020 - Dec 2025

BS in Product Design

- Gained immersive experience in industrial design, prototyping, visualization, and CMF, supported by a solid foundation in research methods, materials, manufacturing, and sustainable practices.

Skills & Tools

Skills

Industrial Design, Form Development, User Research, Visualization, Prototyping, CMF Design, Multi-AI Tool Integration in Creative Work

Tools

Rhino, Solidworks, Fusion 360, Gravity Sketch, Keyshot, Blender, Substance, C4D, All Adobe softwares
