Summary of Skills

Develop concepts based on needs and wants

Rapid prototyping with great quality and expressive appearance

High fidelity prototyping with great detail and finishes

Precise 3D modeling refines form and structure.

Expressive rendering highlights materials and detail with clarity.

Great communication among teammates

Skills

Digital:

Windows platform

Adobe Suite

SolidWorks

Keyshot

Gravity Sketch

Procreate

Cura

Physical:

Basic workshop

Machinery operation

Hand tools operation

Sketching

Laser cutting

Rapid prototyping

3D printing

Working experience

Xiaomi Automotive, Shanghai, China

---- **Product design department intern**

May, 2024 - August, 2024

Market research for various projects

Vehicle interior detail design for various projects

Design and successfully launch a multifunctional EV charger

---- Market research

---- Competitor analysis

---- Internal layout according to required components

---- Form ideation

---- Design refinement according to engineering feedback

---- CMF design

---- Package preparation for prototyping

---- Package preparation for cost evaluation

ArtCenter College of Design, Pasadena, USA

---- **Various Teaching Assistants, lab assistant**

Provide aid in model making, 3D modeling, product rendering

Assist instructors in teaching and student questions

Organize and administer 3D printing lab for students

Photograph for product design department instagram page

Awards

Product design I Lighting project "Cactus Lamp"

---- **ArtCenter Gallery, ArtCenter College of Design, Pasadena, USA**

Product design 3 Helmet design "Arai VR1"

---- **ArtCenter Gallery, ArtCenter College of Design, Pasadena, USA**
