Brian Won
Buck
120 San Pedro St 4th Floor
Los Angeles, CA 90012

Dear Brian,

I am excited to apply for the Motion Graphic Designer position at Buck. As a recent graduate of ArtCenter College of Design with a Bachelor of Fine Arts in Graphic Design, I bring a fresh perspective and a strong foundation in motion graphic design and storytelling.

During my studies, I immersed myself in the world of motion graphics, refining my skills in animation, visual effects, and digital storytelling techniques. My portfolio showcases a diverse range of projects, demonstrating my ability to craft visually stunning motion graphics that effectively convey narratives and captivate audiences.

I first learned about BUCK through the show "Love + Dead + Robot." The shifted reality and stylized miniature was full of humor but still take my viewpoint into the world. I will love to be a part of this unremarkable journey.

Can we schedule an interview to see about possibilities for me to be a part of the team?
Attached is my resume, I will follow up with you next week.

Best regards,

Jiacheng Ye
